This 3D perspective view illustrates the proposed wind farm layout across a hilly terrain. The map is divided into several color-coded regions, each representing a different wind farm area. The regions are labeled as follows:

- Highland** (orange)
- Corriegarth** (green)
- Corriegarth 2** (green)
- Dell 2** (orange)
- Stronelairg** (black)
- Cloiche** (green)
- Culachy** (red)
- Millennium East** (blue)
- Millennium** (black)
- Beinneun** (black)
- Beinneun Extension** (black)
- Beinneun 2** (orange)

The terrain is shown with contour lines, and the wind turbines are represented by small icons of varying colors (orange, green, blue, black) placed across the landscape. A scale bar at the bottom indicates distances from 100 to 170 units.

Date October 2025	By EF		Notes: 1) This visualisation is a cylindrical projection panorama: It provides landscape and visual context only. 2) This data has been output directly from the wireline model: It ignores screening effects of woodland and other intervening objects. 3) All directions given as bearings relative to Grid North (BNG). 4) Location map scale: 1:50,000.
